 BORDER STATIONS WITH DIFFERENT RAIL GAUGES

Critical Logistics Issues in Mongolia

- Mongolia is a landlocked country with two international transport corridors connected via Russia and China.
 - Its logistics infrastructure is still inadequate to meet the growing demand for trade.
 - The cost of logistics is significant, accounting up to 30% of the prices of goods sold in Mongolia.
 - Only three border crossing points (BCPs) into Mongolia have rail connectivity.
 - **Railway is the most viable transportation mode to manage imports and exports to/from Mongolia.**
-

- We offer comprehensive rail and road freight multimodal solutions between Turkey, Europe, The Baltics, The CIS, China and Mongolia.
 - We offer cost effective sea-rail and sea-road transportation services between North America and Mongolia via our multimodal transportation hub in Riga, Latvia.
 - We offer container and breakbulk sea-rail transportation services between Turkey, Black Sea and Mongolia via Novorossiysk port, Russia.
 - Our rail freight team has in-house technical capabilities to offer cost-effective multimodal transportation solutions for containerized, breakbulk and projects cargoes to Mongolia.
 - We provide reliable road and rail freight solutions for the ambient and temperature-controlled cargoes to Mongolia.
-

OUR TEMPERATURE-CONTROLLED TRANSPORTATION SOLUTION

GLOBALINK
LOGISTICS

- Low sensitivity and small volume delivery
- Single 40'reefer container railage
- 20% less cost in comparison to road transport with a payload up to 30 mt
- Temperature control variation between +18C and -20C
- Clip-on clip-off reliable gensets
- Track and Trace

GLOBALINK BLOCK-TRAIN SOLUTION

GLOBALINK
LOGISTICS

- Cost effective Reefer containers block-train service option
- Suitable for temperature sensitive goods and high-cost products such as pharmaceutical, sea-food etc.
- Cargo is accompanied by qualified personnel to control temperature and cargo safety during the transportation
- Provision of GLONASS electronic safety seals for transit cargo through Russian territory
- Tailored-made solution for a single and twin 40' Reefer Cntr.
- Dedicated block-train service for 18 x 40' Reefer Cntrs.

OUR MULTIMODAL SOLUTIONS

GLOBALINK
LOGISTICS

- Short lead time of 1-4 days for the first-leg of transportation between European origins and our Baltics freight hub.
- Cost effective cargo collection by road and rail from all major European origins to our Baltics freight hub.
- Cargo storage, labeling, packing and other value-added services in our freight hub in Riga.
- Transit time for the direct rail freight service between Baltics hub and Mongolia is approx. 16-20 days.
- Fast short-sea connections from all major northern European ports to the Baltics.
- Regular sea freight service between Middle East, North Africa, Mediterranean, North America and the Baltics.
